

CBAM CONSULTANCY SERVICE

SUPPORTING UK BUSINESSES WITH CBAM COMPLIANCE

EXPORTING TO THE EU? CBAM COULD IMPACT YOUR COSTS, COMPLIANCE, AND COMPETITIVENESS.

The EU's Carbon Border Adjustment Mechanism (CBAM) is changing how businesses trade with Europe. If your products fall within scope, your EU customers will require detailed carbon emissions data and failure to provide it could increase costs or disrupt trade.

WHAT IS CBAM?

CBAM is an EU regulation designed to prevent carbon leakage and promote greener global trade. It applies a carbon cost to imports, ensuring they are subject to the same environmental standards as EU-produced goods.

WHO DOES IT APPLY TO?

CBAM currently applies to businesses exporting the following products to the EU:

Cement

Iron & steel

Aluminium

Fertilisers

Hydrogen

WHY ACT?

EU importers are required to report actual emissions data wherever possible. This means UK exporters must be prepared to:

- Provide accurate, verifiable carbon emissions data for their product
- Account for both direct and indirect emissions
- Meet strict reporting requirements to avoid trade disruptions, penalties, or reduced market access

Failure to comply could increase costs for your EU customers, delay or disrupt shipments, put your competitiveness at risk

HOW WE CAN HELP

Our CBAM Consultancy Service provides practical, expert support to help your business become compliant and confident.

Our service includes:

ON-SITE OR VIRTUAL ASSESSMENT
A CBAM expert reviews your operations and identifies key emission sources

CUSTOM REPORTING FRAMEWORK
Setting up a CBAM-compliant monitoring system

PROCESS ANALYSIS
We assess emissions across your production processes

THE BENEFITS TO YOUR BUSINESS

- Support your EU customers with compliant, reliable data
- Avoid delays, disruptions, or additional costs in your supply chain
- Strengthen your position in EU markets
- Identify opportunities to reduce emissions and long-term costs
- Prepare for future UK CBAM legislation expected from 2027

WHY WORK WITH US?

- Delivered by CBAM specialists accredited by British Chambers of Commerce
- Trusted by businesses across the Chamber Network
- Practical, commercially focused support

CBAM HEALTH CHECK

Scan the QR code and take our 5-minute CBAM Health Check and identify any gaps in your compliance. Make sure you use code: **SUF-CBAM**
